

St James Conservancy

“Conserve and Protect our Natural Resources”!

- 1.) Promote education, fellowship, friendship, knowledge of, and interest in environmental as well as conservation practices to bring our community to a higher standard.
- 2.) Support and grow our UNCW Research Sanctuary (Living Shoreline – Oyster Reefs) and Audubon Bird Sanctuary, while identifying other opportunities.
- 3.) Protect and educate our community on the 42.4% (2,455 of the 5,785-acres) of our community that are under Preservation/Conservation Stewardship.
- 4.) Provide a meeting opportunity to bring together the many St James’ clubs and organizations with conservation objectives such as Ponds, Garden, Fishing, Energy, Trails, Recycling, Fire Wise, Turtles (Platforms & Nest Watch), CARES, etc. for educational purposes to share ideas and develop new approaches, initiatives, projects, etc.
- 5.) Demonstrate commitment, leadership, and results to other communities!

Conservation begins with Education!
